

## **CERTIFICATE IN EMERGENCY MANAGEMENT**

This one-year part-time Certificate Programme in Emergency Management is open to persons who have completed the Introductory Course in Crisis and Emergency Management and to others individuals who have had three years training and background experience in related fields. These individuals would include the following:

- Risk managers in the private and public sectors as well as those who will be responsible for hazards assessments, OSHA compliance, and emergency response (volunteer agencies included)
- Emergency management professionals who will be relied upon to protect the public in the event of major emergencies. This includes professional and auxiliary firefighters, police officers, emergency medical service workers, and private industry safety managers
- Governmental and industrial emergency management planners who must prepare for potential emergencies by designing procedures, purchasing equipment as in some cases where they may have to predict possible disasters
- Aspiring emergency management professionals seeking a broad-based education in the procedures for coping with daily emergencies and major disasters
- Emergency management professionals who need additional skills to prepare for management opportunities.

## **PROGRAMME OUTCOMES**

Upon completion of this Certificate Programme, students will be able to do the following:

- Conduct hazard analysis
- Develop and write disaster plans
- Interpret and apply the laws and polices in emergency management
- Coordinate emergency management operations
- Prepare for and conduct disaster-planning meetings
- Advise on the best practices in emergency management
- Conduct pre-planning activities for community reliance
- Implement the Phases of Emergency Management to disaster management needs
- Implement the Principles of Emergency Management in emergencies
- Apply the National Incident Management System (NIMS) to disaster management

- Advise on the operation of Emergency Organizing Committees (EOGs)
